1. Use these 3 digits to create as many as 3 digit numbers as you can!! You can only use each number once.
2. I have 3 coins. They are all different. How much money could I have? How many different combinations can you find?
3. What shape am I? Using your knowledge of 2 D shapes, write up to 4 clues to describe each of the shapes listed below. You cannot include the name of the shape in your descriptions! Challenge your family and see if they can guess what shape you are describing.

Rectangle
Square
Circle
Triangle
Pentagon
Hexagon

Science

1. Using your knowledge of microhabitats and minibeasts, design a 'Minibeast Hotel'. Your hotel could be for 1 type of minibeast or lots of different minibeasts.
2. You will need to think about what each minibeast needs in their habitat before deciding on what your hotel needs to look like and what materials you use to build it.
3. Write a description of your hotel and explain why you have chosen each feature!

Tip- think of what your minibeasts eat and their natural habitat!

Topic – Create your own imaginary town

1. Make a list of the different features you would like in your town. Would you like a school? A railway track? A bus station? Can you come up with some wild and crazy ideas?
2. Write down why you would like these features and why these would be useful in your town.
3. Create a labelled plan detailing what your town would look like. Once you have drawn your plan have a go at making it – you could use junk modelling materials, lego or objects from around your home.

**Can you imagine a house on a lake,
Where you would go if you needed a break?
It would sit all alone on an island so small.
You wouldn't tell anyone about it at all.**

**It would be a simple house, made of wood,
Where a rickety old church once stood.
Your only company would be the trees,
The only sound would be the breeze.**

**You could sit outside and admire the view,
Or hide inside with a book. (or two!)
Imagine how calm and peaceful you'd feel
If time to yourself, like this, you could steal!**
