

Going back to school!

**Lately, I have been staying at home
instead of going to school.**

This is what has happened at school while I have been at home.

Cleaners have been cleaning.

Teachers have been busy planning and making sure that our classrooms are ready.

Mrs Pelazza and her staff have been making sure that school is safe and clean for us all to return.

I am so excited to be returning to school
at Phoenix Infants!

Some things will be the same as before.

I will see friends and adults that I know!

I will spend my day with teachers that I know.

I will do my learning at school as usual.

I will have my lunch at school.

At the end of the day, I will go home again.

This makes me feel really happy!

Some things will be different.

Not all of my friends will be at school and there will be less children in my class.

I will play, learn and eat lunch only with those children in my class.

There will be fewer toys in my classroom.

I will have my own pack of pencils and pens.

I will start and finish school at slightly different times.

There will be new rules to follow, but I don't need to worry about these because the adults will help me with them.

All of these things make sure that we are all safe and happy.

Why will school be different for a while?

Things will be a little different at school for the moment.

Your adults can read this story to you to help you understand.

It's OK to be a little anxious when things are different, but remember that things will be back to normal soon.
